Important events to be reported: Results of the November 2026 Romanian Tourism Fair

The management of Christian '76 Tour S.A. (hereinafter referred to as the "Company") announces the results recorded during the November 2026 edition of the Romanian Tourism Fair, held between 19 and 22 November 2026. The Company delivered a strong commercial performance, generating total sales of over EUR 7.4 million during the four-day event, an increase of 74% compared to EUR 4.3 million recorded during the November 2025 edition. This represents an additional EUR 3.2 million in sales year-over-year, highlighting the Company's ability to attract customer demand and achieve substantial growth in a consumer environment characterized by increased price sensitivity and more selective spending.

The strong sales performance was supported by significant growth in both booking volumes and average booking values. A total of 9,418 tourists booked holidays with Christian Tour during the event, an increase of 65% compared to the previous edition, while the number of bookings rose by 66% to 3,621. At the same time, the average booking value increased by 14% to EUR 2,047, compared to EUR 1,799 in 2025. The simultaneous increase in volumes and average booking values reflects sustained demand for holiday packages and customers' willingness to commit to higher-value travel experiences.

One of the most notable trends was the strong preference for early booking, with customers increasingly choosing to secure their holidays well in advance. Early bookings accounted for 83% of all reservations during the event, compared to 71% in the previous year, representing 2,999 bookings

and 8,017 tourists. In value terms, early bookings generated approximately EUR 6.3 million, or nearly 85% of total sales, providing the Company with greater visibility into demand for the upcoming travel seasons and supporting its capacity planning and negotiations with hotel and airline partners.

Charter holiday packages remained the main driver of commercial performance, generating approximately EUR 5.9 million in sales, an increase of 155% compared to the 2025 edition, and accounting for 79% of total sales. The Experiences and Adventure category also maintained a positive trajectory, with sales exceeding EUR 1.3 million, up 19% year-over-year and representing approximately 18% of the total. The strong contribution of charter packages confirms the continued importance of integrated holiday products within the Company's offering and their role in driving sales growth.

In terms of destinations, Türkiye maintained its position as the most popular choice among Christian Tour customers, with sales increasing by 181% compared to the November 2025 edition. Egypt followed, recording an even stronger year-over-year increase of 197%, while Greece registered growth of 57%. Among other Mediterranean destinations, Spain recorded a 36% increase, followed by Italy, with growth of 2%, while Tunisia registered a slight decline of 3%. Interest in domestic tourism also strengthened, with sales of holidays in Romania increasing by 46% year-over-year, highlighting continued demand for local travel experiences alongside international destinations. At the same time, organized tours to Japan recorded a 140% increase, reflecting growing interest in unique travel experiences and culturally distinctive destinations.

The strong performance of the Romanian Tourism Fair follows the successful Black Friday campaign held between 6 and 9 November 2026, during which Christian Tour generated sales of over EUR 3.6 million, an increase of over 41% year-over-year, with more than 4,400 tourists booking holidays, as reported by the Company on 10 November 2026, via Current Report 17/2026.
