

Press release

Bucharest, 15 October 2018

SN Nuclearelectrica SA (“SNN”) announces that Cernavoda NPP Unit 2 will operate, starting with 13:00 hours, October 15th, 2018 at a reduced power in order to implement repair works at a tank related to the turbogenerator (the classical part of the power plant).

The repair works can only be carried out at a reduced output of Unit 2. We estimate that Unit 2 will operate at a reduced power of cca 300-350 MW for a period of 12 hours.

The controlled power reduction and the completion of the repair works will be carried out under full safety conditions, in compliance with the specific procedures of the power plant.
