Important events to be reported: Approval of non-reimbursable financing for a third investment project involving renewable energy electricity generation capacities

The management of Agroserv Măriuța S.A. (hereinafter referred to as the "Company") informs shareholders and investors that a third project submitted by the Company has been declared eligible and included for financing under the aid scheme administered by the Agency for Financing Rural Investments ("AFIR"), aimed at supporting investments in new renewable energy electricity generation capacities for the self-consumption of companies operating in the agricultural and food industry sectors.

The project called "New electricity generation capacity from renewable solar sources within Agroserv Măriuța – Belciugatele Off Grid" involves the creation of a new 0.375 MW electricity generation capacity from renewable solar sources within the Company, with an integrated storage system, and benefits from non-reimbursable financing of EUR 230,343.75. The system will operate off-grid and will exclusively serve an irrigation system, with the energy produced intended entirely for self-consumption.

This project adds to the two projects previously reported to the market via [Current Report 12/2026](#) from the 9th of September 2026, bringing the total non-reimbursable financing approved for the Company under this aid scheme to EUR 2,034,760.75.

The implementation of the project will contribute to reducing the Company's reliance on electricity purchased from the grid, optimizing operating costs and improving the energy efficiency of the Company's irrigation activities.

The project will enter the contracting stage, and the Company will inform the market of the signing of the financing agreement and any other relevant developments.

According to the notification issued by AFIR, potential appeals may be submitted within five business days from the transmission of the notification regarding the project being declared eligible. Based on the
