#### *Economic, financial and market activity of SC ARTEGO SA*

*During this period one of the priorities of our Company is the health of our employees. In accordance with the Emergency Ordinance no. 132/2020 with subsequent amendments and completions, the Company reduced the working time of employees by 50%, respectively 80% of the duration provided in the individual employment contract and requested from AJOFM Gorj the allowances provided by this ordinance. in the amount of 218,233 lei for February 2021, the amount of 443,461 lei for April 2021 and the amount of 1,347,526 lei for May 2021. The company received from AJOFM Gorj the amount of 1,931,694 lei.*

*The epidemic caused by coronavirus is a major shock to the European and world economy. The spread of the coronavirus epidemic is causing turmoil in financial markets, with significant effects on the world economy expected as a result of measures taken to manages the global crisis.*

*For our Company, the effects of the economic crisis can be felt most easily through a depreciation of the national currency in relation to the currencies we work with, through delays in the supply of raw materials, in the production, delivery and transport of products.*

*The lack of the possibility to make coherent and correct predictions led to maintaining the volatility of the Romanian business climate, the main commercial organizations in the steel, oil and energy fields continuing to focus on reducing costs and implicitly carrying out procurement activities characterized by pursuing procurement prices. the lowest.*

*Under these conditions, the stages involved in renegotiating commercial contracts with some companies in the mentioned fields were difficult and lasted much longer than the initially estimated time, which left its mark on the decrease in the volume of orders for specific products and implicitly on the level of sales.*

*The late approval of the budgets for 2021 related to the economic operators in the mining and energy fields, the postponement of the initiation of public procurement procedures, the decrease of the funds allocated to these acquisitions, all this led to the decrease of the possibility of obtaining a large volume of orders. would have been the result of winning auctions.*

*At the same time, the unfair competition encountered in some tenders led either to the increase of the duration of awarding contracts, with the time necessary to resolve appeals, or*

to the loss of tenders, given that the contracting authorities continued to opt for the award criterion "lowest price ", Which led to the passing of the aspects of quality criteria on a background. This aspect of the price level as the only award criterion produces both the favoring of the presence on the market of some products of a doubtful quality level, and the diminution of the company's market share on the afferent niches. On the other hand, in the field of electricity distribution, for the acquisition of specific products can be found in the award documents a series of additional criteria to the legal conditions met, regarding the composition of eligibility and / or qualification documents (environment, health and occupational safety). , etc.), the specific and differentiated technical conditions of the products, the required delivery terms, the methods of making the imposed payments, finally representing barriers that lead to the impossibility of participation and finally to the decrease of sales potential to these organizations.

In other words, the turbulence of the economic environment adversely affects the ability to make payments by customers, with long delays in the collection of money for deliveries, which leads to a negative impact on cash flows and the possibility of making payments to suppliers on time.

For the next period, the evolution on the market will be influenced by the impact, on which the measures that will be taken starting with July 2021 at macroeconomic level (increase of natural gas prices, evolution of fuel price, evolution of the leu / euro exchange rate, development and / or the conclusion of the privatization processes in the fields of railway and air transport, the expected organizational evolutions in the energy field, the insolvency status of some organizations in the energy and petrochemical fields) will have it on the dynamics of acquisitions, investments, modernizations, maintenance.

Therefore, taking into account all these aspects, if the general evolution of the Romanian economy will know a relative stability, it is possible a maintenance, in the short and medium term, of the existing situation, from the point of view of the level of sales and productive activity. continuing, on the other hand, to make efforts to ensure cash flows that allow the payment of debts to employees, the state and suppliers. At the same time, action will be taken to identify all the availability to reduce as much as possible the difference between income and expenses and for a corresponding reaction to the influence of all these factors that have potential impact on the evolution of the market and the performance of SC ARTEGO SA.

**We mention the fact that the financial statements prepared on 30.06.2021 were not audited / revised.**

## 2. ANALYSIS OF THE ACTIVITY OF THE COMMERCIAL COMPANY

### 2.1. *Liquidity indicators*

- % -

Crt. No.	Name of indicators	Calculation formula	30.06.2020	30.06.2021
1.	Current patrimonial liquidity	[Current assets /DTS]	1,83	2,41
2.	Active (fast) liquidity	[Current assets.-Stocks]/DTS	75,47%	103,50%
3.	Speed of rotation fixed assets	Turnover /Intangible assets	1,31	1,82
4.	Speed of rotation of total assets	Turnover / total assets	0,42	0,63
5.	Interest rate cover indicator	Profit before payment of interest and profit tax / Expenses with interests	7,64	16,09
6.	Profitability of the Committed capital	Profit before interest and profit tax / Committed capital	0,0574	0,0508
7.	Gross margin from sales	Gross profit from sales / Turnover	8,70%	5,80%

### 2.2 *Capital expenditures*

*Due to the economic situation, both at the company level and at the macroeconomic level, the investments in the analyzed period stagnated, the cash outflows being destined to pay the debts accumulated in the previous period.*

2.3. The income structure **from the basic activity is presented** in the following:

#### **Operating income**

-lei-

Elements	30 iunie 2020	30 iunie 2021
Production sold	56.287.704	71.928.062
Income from sale of goods	1.085.215	1.316.464
Commercial discounts granted	(138.080)	(106.633)
Revenues related to the costs of product stocks	9.040.457	4.767.535
Income from the production of fixed assets	229.478	445.608
Income from fixed assets intended for sale	-	-

Income from operating subsidies	4.063.196	2.009.220
Other operating revenues	289.146	511.582
<b>Total operating income</b>	<b>70.857.116</b>	<b>80.871.838</b>

*In the next period, in the short and medium term, taking into account the difficulty of predicting the evolution of the Romanian economy, but also relying on a possible stability, it can be estimated for S.C. ARTEGO SA. a constant tendency of the existing situation, as well as productive activity and level of sales.*

### **3. CHANGES AFFECTING THE SHARE CAPITAL AND THE ADMINISTRATION OF THE COMMERCIAL COMPANY**

*3.1. During the analyzed period of time, there were no cases in which the company could not fulfill its obligations to third parties, even if in some situations the payments were made late.*

*3.2. During the analyzed period of time, there were no changes regarding the rights of the holders of securities issued by the company. The shareholding structure as of June 30, 2021 is as follows:*

<b>Shareholders</b>	<b>Nominal value per share</b>	<b>Number of shares held</b>	<b>Total value</b>	<b>% of the social capital</b>
<b>ASSOCIATION OF THE EMPLOYEES PAS ARTEGO</b>	2,50	6.968.820	17.422.050,00	77,8103%
<b>Other legal entities</b>	2,50	878.109	2.195.273,00	9,8045%
<b>Other individuals</b>	2,50	1.109.234	2.773.085,00	12,3851%
<b>THE ROMANIAN STATE THROUGH THE AUTHORITY FOR THE ADMINISTRATION OF STATE ASSETS</b>	2,50	2	5,00	0,0000%
<b>TOTAL</b>	<b>2,50</b>	<b>8.956.165</b>	<b>22.390.413,00</b>	<b>100,000%</b>

According to the EGMS decision of 16.04.2019, SC ARTEGO SA repurchased in 2020 a number of 841,419 treasury shares in order to cancel them and reduce the share capital from 22,390,412.50 lei to 20,286,865 lei. By EGMS decision no. 2 / 29.03.2021, the mentioned share capital reduction was approved.

## **Notes to the financial statements**

### ***For the financial year ended 30 June 2020***

#### **1. Reporting entity**

SC ARTEGO SA TG-JIU, (The Company) is established in 1991 which operates in Romania in accordance with the provisions of Law 31/1990 on commercial companies and Law 297/2004 on the capital market.

The company is headquartered in Ciocarlau Street no. 38 Tg-Jiu municipality, Gorj county.

According to the statute, the main field of activity of the Company has the cone CAEN 2219 "Manufacture of other rubber products".

The record of shares and shareholders is kept in accordance with the law by the Central Depository.

#### **2. Basics of preparation**

##### **(a) Declaration of conformity**

The separate financial statements have been prepared in accordance with the International Financial Reporting Standards ("IFRS") adopted by the European Union and in accordance with the provisions of OMFP 2844/2016 as subsequently amended and supplemented.

The Company applies the International Financial Reporting Standards as approved by the European Union when preparing the separate financial statements concluded on June 30, 2021 in accordance with OMF no. 881/2012. This order specifies that starting with the financial year 2012, the annual financial statements will be prepared in accordance with IFRS, this order being applicable to companies whose securities are admitted to trading on a regulated market.

The accounting records of the Company are maintained in lei, in accordance with the Romanian Accounting Regulations ("RCR"). These accounts have been restated to reflect the differences between the accounts under RCR and those under IFRS. Accordingly, the accounts under RCR have been adjusted, if necessary, to harmonize these separate financial statements in all material respects. , with IFRS.

##### **(b) Presentation of financial statements**

The separate financial statements are presented in accordance with the requirements of IAS 1 "Presentation of Financial Statements".

##### **(c) Basics of evaluation**

The separate financial statements are prepared at historical cost, except for certain classes of property, plant and equipment that are revalued.

The share capital is adjusted according to the International Accounting Standard ("SIC") 29 ("Financial reporting in hyperinflationary economies") until December 31, 2003.

The management considers that the Company will carry out its activity in the foreseeable future and, consequently, the application of the principle of continuity of activity in the preparation of the financial statements is considered adequate. The separate financial statements are presented in accordance with the requirements of IAS 1 "Presentation of

Financial Statements". The Company has adopted a presentation based on liquidity in the balance sheet and a presentation of income and expenses according to their nature in the profit and loss account, considering that these presentation methods provide information that is credible and more relevant than those that would have been presented.

#### **(d) Functional and presentation currency**

The Company's management considers that the functional currency, as defined by IAS 21 "Effects of exchange rate fluctuations", is LEI or RON. The separate financial statements are presented in lei, rounded to the nearest leu, the currency that the Company's management has chosen as the presentation currency.

#### **(e) Use of estimates and judgments**

The preparation of financial statements in accordance with IFRS adopted by the European Union involves the use by management of estimates, judgments and assumptions that affect the application of accounting policies and the reported value of assets, liabilities, income and expenses. The estimates and assumptions associated with these estimates are based on historical experience as well as other factors considered reasonable in the context of these estimates. The results of these estimates form the basis of judgments regarding the carrying amounts of assets and liabilities that cannot be obtained from other sources of information. The results obtained may differ from the values of the estimates. The estimates and assumptions underlying them are reviewed periodically. Revisions to accounting estimates are recognized in the period in which the estimate is revised, if the revision affects only that period or in the period in which the estimate is revised and future periods if the revision affects both the current period and future periods. The judgments performed by management from the application of IFRS have a significant effect on the financial statements as well as the estimates that imply a significant risk.

### **3. Significant accounting policies**

The accounting policies presented below have been consistently applied to all periods presented in these separate financial statements.

#### **(a) Subsidiaries and associated entities**

Subsidiaries are entities under the control of the Company. Control exists when the Company has the power to conduct, directly or indirectly, the financial and operational policies of an entity in order to obtain benefits from its activity. Associated entities are those companies in which the Company can exercise significant influence, but not control over financial and operational policies.

The company does not own associated companies.

#### **(b) Foreign currency transactions**

Transactions denominated in foreign currency are recorded in lei at the official exchange rate from the settlement date of transactions. Monetary assets and liabilities recorded in foreign currencies at the balance sheet date are translated into functional currency at the exchange rate on that day. from the conversion using the exchange rate at the end of the month or at the end of the financial year the monetary assets and liabilities denominated in foreign currency are recognized in the profit and loss account.

## **c) Financial Instruments**

### **Financial risk management**

The company is exposed to the following risks arising from financial instruments: market risk (interest rate risk and currency risk), credit risk and liquidity risk. The Company's management focuses on the unpredictability of the financial market and seeks to minimize the potential adverse effects of the Company's financial performance. Market risk is the risk that causes changes in market prices, as well as the exchange rate and interest rate that will affect the Company's income.

The company has no formal commitments to combat financial risks. Despite the lack of formal commitments, financial risks are monitored by the Company's management, focusing on the Company's needs to effectively address opportunities and threats.

### **Interest rate risk**

The Company's operating cash flows are affected by changes in interest rates, mainly due to foreign currency loans contracted by the financing banks. The cash risk determined by the interest rate is the risk that the interest, and therefore the expense with it, will fluctuate.

### **Currency risk**

The company may be exposed to exchange rate fluctuations in cash and cash equivalents, receivables or trade payables denominated in foreign currency.

The currency used on the domestic market is the Romanian leu. The company is exposed to currency risk in cash and cash equivalents from purchases and loans made in a currency other than that used on the domestic market. The currencies that expose the Company to this risk are mainly EUR, USD, and GBP. Foreign currency loans are subsequently expressed in lei, at the exchange rate on the last banking day of each month, communicated by the National Bank of Romania. The resulting differences are included in the income statement.

### **Credit risk**

Credit risk is the risk in which the Company will incur a financial loss as a result of the breach of contractual obligations by a client or a counterparty to a financial instrument, and this risk results mainly from trade receivables and cash and cash equivalents.

As of June 30, 2021, the Company holds cash and cash equivalents in the amount of 1,585,290 lei. Cash and cash equivalents are held at banks of which we list: Unicredit, Intesa, ING Bank, Credit Europe, Garanti, BRD.

### **Liquidity risk**

Liquidity risk is the risk according to which the Company will encounter difficulties in fulfilling the obligations associated with financial debts that are settled in cash or by transferring another financial asset.

A prudent liquidity risk management policy involves maintaining sufficient cash and cash equivalents, the availability of funding through appropriate credit facilities. The Company's liquidity policy is to maintain sufficient liquid resources to meet obligations as they reach maturity.

### **Fair value of financial instruments**

Fair value is the value at which financial instruments can be exchanged in ordinary transactions, other than those determined by liquidation or forced sale. Fair values are obtained from quoted market prices or cash flow models as appropriate. As of June 30, 2021, cash and other cash, customers and similar accounts, trade payables and other payables are approaching their actual value due to their short maturity. Management considers that the estimated value of these instruments is close to their carrying amount.

### **Capital risk management**

The Company's objectives when managing capital are to maintain the Company's ability to continue its operations in order to obtain benefits for shareholders and other interested parties and to maintain an optimal capital structure in order to reduce the cost of capital.

### **Accounting for the effect of hyperinflation**

In accordance with IAS 29 and IAS 21, the financial statements of an entity whose functional currency is the currency of a hyperinflationary economy must be presented in the current unit of measurement at the balance sheet date (non-monetary items are restated using a general price index from the date of acquisition or contribution).

According to IAS 29, an economy is considered to be hyperinflationary if, among other factors, the cumulative inflation rate over a three-year period exceeds 100%.

The continuous decrease of the inflation rate and other factors related to the characteristics of the Romanian economic environment indicate that the economy whose functional currency was adopted by the Company has ceased to be hyperinflationary, with effect on financial periods starting with January 1, 2004. 29, were adopted in the preparation of the separate financial statements until December 31, 2003.

Thus, the values expressed in the current unit of measurement at December 31, 2003 are treated as the basis for the carrying amounts reported in these separate financial statements and do not represent measured values, replacement cost, or any other measurement of the current value of assets or prices at which transactions would take place at this time.

For the purpose of preparing the separate financial statements as of December 31, 2012, the Company adjusted the share capital (non-monetary item) to be expressed in the current unit of measurement as of December 31, 2003.

### **Tangible fixed assets**

Property, plant and equipment are assets that: are held by an entity for use in the production of goods or services, leased to third parties or used for administrative purposes, and are used for a period of more than one year. .The acquisition cost includes the purchase price, import duties and other taxes (except those that the legal person may recover from the tax authorities), transport, handling and other expenses that may be directly attributable to the purchase of the goods.

The valuation of property, plant and equipment at the balance sheet date is carried out at cost, less accumulated depreciation and amortization, or at revalued amount, this being the fair value at the revaluation date, less any subsequent accumulated depreciation and any subsequent accumulated impairment losses..

Depreciation periods are as follows:

Buildings and constructions	40-60	ani
Equipment	15-40	ani
Means of transport	5-8	ani
Office furniture and equipment	3-5	ani

### **Intangible assets**

An intangible asset is an identifiable, non-monetary asset that has no material support and is held for use in the production or supply of goods or services, to be leased to third parties, or for administrative purposes.

An intangible asset meets the criterion of being identifiable when:

- is separable, ie can be separated or divided by the entity and sold, transferred, authorized, leased or exchanged, either individually or together with a corresponding contract, an identifiable asset or an identifiable debt or arises from contractual or other legal rights , whether those rights are transferable or separable from the entity or other rights and obligations.

Intangible assets acquired by the Company are presented at cost less accumulated depreciation and the provision for impairment of intangible assets. Depreciation is recognized in the income statement based on the straight-line method over the estimated life of the intangible assets.

### **Receivables**

Trade receivables are initially recorded at the invoiced value and later those in foreign currency are valued at the exchange rate communicated by the National Bank of Romania on the last banking day of the month. at the set deadline.

### **Stocks**

The stocks are made up of:

- raw materials, materials, spare parts and other consumables to be used in the course of the company's core business.

These materials are recorded as stocks at the time of purchase and are expensed at the time of consumption.

The stocks are measured at the lowest cost and net realizable value. The cost of inventories is determined based on the FIFO method and includes the expense incurred in purchasing the stocks.

### **Money availability**

The cash and cash equivalents include house, current accounts, bank deposits, meal vouchers, stamps and checks and promissory notes received by the company.

### **The revaluation reserves**

After the recognition as an asset, an item of property, plant and equipment whose fair value can be measured reliably, it is accounted for at a revalued amount, that is its fair value at the revaluation date minus any subsequent accumulated depreciation and any accumulated impairment losses. To be done with sufficient regularity to ensure that the carrying amount does not differ materially from what would have been determined by using the fair value at the balance sheet date.

If the carrying amount of an asset is increased as a result of a revaluation, this increase should be recorded directly in equity in the item "Revaluation reserves". However, the increase is recognized in profit or loss to the extent that it compensates for a decrease in the revaluation of the same asset previously recognized in profit or loss.

If the carrying amount of an asset is impaired as a result of a revaluation, that decrease is recognized in profit or loss. However, the impairment should be debited directly from equity to the item "Revaluation reserves" in so far as there is a credit balance in the revaluation surplus for this asset.

The revaluation surplus included in the equity of an item of property, plant and equipment is transferred directly to the retained earnings as the revalued tangible assets are depreciated and when the asset is recognizable.

Starting from 1 May 2009, the statutory reserves from the revaluation of fixed assets, including land, after 1 January 2004, which are deducted in the calculation of taxable profit through tax amortization or disposal costs and /or tax at the same time as the deduction of tax depreciation, respectively at the time of decrease of these fixed assets.

Statutory reserves from the revaluation of fixed assets, including land, made up to 31 December 2003 plus the portion of revaluation made after 1 January 2004 for the period ending 30 April 2009, will not be taxed at the time of the transfer to the reserves representing the surplus realized of the revaluation reserves.

The reserves made are taxed in the future in the event of a change in the destination of the reserves in any form, in the event of liquidation, merger, including its use to cover the accounting losses, except for the transfer after 1 May 2009, of the reserves for the evaluations made after 1 January 2004, which are taxed at the same time as deducting tax depreciation.

### **Social capital**

The company recognizes the changes in the share capital under the conditions provided by the legislation in force only after their approval in the General Meeting of Shareholders and their registration with the Trade Registry Office.

### **Dividends**

The dividends are recognized as a liability in the period in which their allocation is approved.

### **Suppliers and assimilated accounts**

The debts to suppliers and other debts include the value of the invoices issued by suppliers of manufactured finished products, executed works and services.

### **Loans**

The loans are initially recognized at fair value, net of transaction costs. Subsequent to initial recognition, the loans are recorded at amortized cost, any difference between cost and reimbursement being recognized in the income statement over the period of the loan.

### **Profit tax**

The profit tax expense comprises current tax and deferred tax. The current and deferred tax is recognized in the income statement unless it is recognized directly in equity or other comprehensive income.

#### **Current tax**

The current tax is the tax that is expected to be paid or received for the taxable income or deductible loss incurred in previous years using tax rates adopted or largely adopted at the reporting date and any adjustment to the related tax liability payable of previous years.

#### **Deffered tax**

The deferred tax is recognized for the temporary differences that occur between the carrying amount of assets and liabilities used for the purpose of financial reporting and the tax base used for the tax calculation.

The deferred tax assessment reflects the tax consequences that arise from the way the company expects to recover or settle the value of its assets and liabilities at the end of the reporting period. The deferred tax assets are reviewed at each reporting date and are diminished to the extent that they are which is no longer possible to achieve the related tax benefit

### **Benefits of the employees**

*Benefits of short-term employees*

The obligations on short-term benefits are assessed without being updated and are recognized as expenses as services are rendered. A provision is recognized at the amount that is expected to be paid for short-term benefits in the form of bonuses or employee participation in profit only if the Company has a present, legal or constructive obligation to pay that amount for past service provided by employees, and this obligation can be estimated at fair value. The benefits of short-term employees are mainly payroll. In the normal course of business, the company makes payments on behalf of its employees to the pension fund. All the company's employees are members of the Romanian State Pension Plan.

### **Funding costs**

The company does not capitalize the cost of the loans because it does not have long-term loans. The interest income and interest expense are recognized in the income statement when they are paid.

### **Subsidies**

The subsidies are initially recognized as prepaid earnings at fair value when there is reasonable assurance that they will be received and the company will comply with the grant-related conditions and then are recognized in the income statement as other income over the life of the asset to which it refers. The subsidies are related to assets. The non-reimbursable funds are recognized as assets when there is reasonable assurance that they will be received and the related conditions will be met. indeplinite.

### **Provisions**

A provision is recognized at that time and only when the following conditions are met: the company has a current (legal and implicit) obligation as a result of a past event, it is probable (more likely than unlikely) that an outflow of resources representing economic benefits to be required to settle the obligation, when a fair estimate of the amount of the obligation can be made.

### **Output per share**

In accordance with SIC 33 "Earnings per share", the earnings per share is calculated by dividing the profit or loss attributable to the company's shareholders to the weighted average of the outstanding ordinary shares of the period.

The weighted average of shares in circulation during the exercise is the number of shares at the beginning of the period, adjusted by the number of shares issued, multiplied by the number of months in which the shares were in circulation during the exercise.

The dilution is a reduction in earnings per share or an increase in share losses resulting from the convertibility of convertible instruments, options or warrants are exercised or ordinary shares are issued subject to certain specified conditions. The diluted earnings per share object is consistent with that of the basic share result, namely, to evaluate the interest of each ordinary share in the performance of an entity.

## **Contingents**

The contingent liabilities are not recognized in the accompanying financial statements. These are presented if the outflow of resources embodying economic benefits becomes possible and not probable.

A contingent asset is not recognized in the accompanying financial statements but is presented when an economic benefit is probable.

## **Reporting on segments**

A segment is a distinct component of the company that provides certain products or services (segment of activity) or provides products or services in a particular geographical environment (geographic segment) and which is subject to risks and benefits different from those of other segments.

The company carries out its operations in a single location in Romania. The company's management considers all of their operations as "one segment".

Operating segments are examined in a consistent manner by the entity's principal operational decision-maker for making decisions about segment allocation and performance appraisal, and for which distinct financial information is available.

An entity must report revenue from external customers for each product and service, or for similar products or services, unless the required information is not available and the cost of developing it would be excessive, in which case it should be disclosed. The reporting must take into account the financial information used to prepare the entity's financial statements.

## **Implications of the new International Financial Reporting Standards (SIRF EU )**

*New standards and interpretations as approved by the European Union*

A number of new standards, amendments to standards and interpretations are applicable to annual periods beginning on or after 1 January 2012 and have not been applied in the preparation of these separate financial statements. None of the new standards expects to have a material effect on the company's financial statements

*New standards not yet applicable on 30 June 2021*

International Accounting Standard (SIC) 19 (2011) Employee Benefits (effective for periods beginning on or after 1 January 2013).

This amendment is not relevant to the company's financial statements, as the company's current policy is to immediately recognize earnings and losses in the income statement.

### Fiscal legislative framework

The legislative-fiscal framework in Romania and its implementation in practice changes frequently and is subject to different interpretations by various control bodies. Profit tax returns are subject to review and correction by the tax authorities, generally for a period of five years after the date of their completion. Management considers that it has adequately recorded the tax liabilities in the accompanying financial statements, however, there is a risk that the tax authorities will take different positions on the interpretation of these issues. Their impact could not be determined at this time.

### **Guarantees**

As of June 30, 2021, the company has mortgaged the following assets in favor of the financing banks to which it has committed credit lines as follows:
