Important events to be reported: Sale of the participation in AROBS Polska

The management of Arobs Transilvania Software S.A. (hereinafter referred to as the “Company” or the “Group”) informs investors of the transaction signed on September 3, 2026, pursuant to which the Company sold its entire participation in AROBS Polska sp. z o.o. (“AROBS Polska”) to WB Electronics S.A. Prior to the sale, the Company acquired the 5.66% interest held by Mr. Michal Drogosz, enabling the subsequent transfer to WB Electronics S.A. to cover 100% of the share capital of AROBS Polska.

The decision to sell AROBS Polska followed a strategic review of the Group’s portfolio of companies and reflects AROBS’ disciplined approach to capital allocation and its focus on areas where the Group has established capabilities, can leverage international synergies and sees the most relevant growth opportunities. These areas include software and engineering services for the automotive industry, IoT and telematics, enterprise software, life sciences and travel.

AROBS Polska’s activity, focused on the development of electronic solutions for satellite applications, has a distinct profile compared to the Group’s core business lines, being characterised by extended development cycles, projects carried out predominantly under institutional programmes, and specific capital and infrastructure requirements.

Against this background, the integration of AROBS Polska into WB Electronics S.A., an industrial group with relevant experience and capabilities in the field, creates favorable conditions for the continued

development of AROBS Polska's operations. The transaction ensures the continuity of ongoing projects and provides the team with access to an industrial platform and a portfolio of programmes suited to the specific nature of its activities.

The transaction does not affect the current operations of AROBS Transilvania Software S.A..

Voicu OPREAN

Chairman of the Board of Directors
