Important events to be reported: Q1 2026 Report

Green Tech International S.A. (hereinafter referred to as the “Company” or the “Group”) informs the market about the publication of the financial report for the first quarter of 2026.

Horia Pitulea, CEO Green Tech International:

“During the first three months of 2026, we continued the strategic direction adopted following Green Tech International’s listing on the Regulated Market of the Bucharest Stock Exchange. In a context marked by volatile energy costs, increasing pressure on energy security, and the acceleration of decarbonization objectives, we believe that geothermal energy is strengthening its role as a strategic resource due to its stability, predictability, and sustainable nature.

In the first quarter, revenue reached RON 5.3 million, representing a 57% increase compared to the same period of the previous year. Profit before tax amounted to RON 1.5 million, up 26% from the level recorded in the first quarter of 2025, while net profit reached RON 1.4 million, reflecting a 138% increase.

In the coming period, we will continue implementing the projects currently under development and further strengthen the governance and transparency framework required of a listed company, with the objective of supporting sustainable growth and creating long-term value for our shareholders.”

The interested parties can consult the report on the Company's official website, www.green-tech.energy, in the "Investor Relations" section, or by accessing directly the following link: <https://green-tech.energy/reports/#reports>.

The company is organizing on **June 3, 2026, starting 5:00 PM** (Romanian time), the videoconference for the presentation of the first quarter of 2026 results.

The videoconference will be held in Romanian. The stakeholders interested in joining the videoconference are asked to confirm their participation by registering at the following link:
