SUMMARY OF THE Q3 2026 FINANCIAL REPORT

In the third quarter of 2026, Transilvania Broker de Asigurare accelerated its growth, with the value of intermediated insurance policies increasing by 25.6% compared to the same period of the previous year. For the first nine months, the value of intermediated insurance policies reached a record RON 910.5 million, up 17.2% on the same period of 2025, driven mainly by the MTPL segment, but also by the expansion of activity in the life insurance segment.

The growth in intermediated volumes, combined with the higher average intermediation commission rate, generated revenues from distribution activity of RON 38.8 million in Q3 2026, 21.9% above the corresponding quarter of the previous year. Cumulative revenues for the period 01.01–30.09.2026 exceeded RON 111.6 million, an increase of 28.4% compared to the same period of the previous year.

Continued investment in strengthening the team and developing the digital infrastructure, together with higher expenses directly linked to business volume, led to a 28.9% increase in operating expenses, at a slightly faster pace than revenues. As a result, net profit reported as of 30.09.2026 stood at RON 1,059,807, 7.7% below the reference period. Liquidity, solvency and debt indicators remain within the financial comfort ranges, reflecting the Company's capacity to support its activity and development strategy.
