PEER COMPARISON, A NEW TOOL AVAILABLE TO INVESTORS VIA BVB RESEARCH HUB

- Peer Comparison, a new section freely available to investors via BVB Research Hub
- The new tool allows real-time comparisons between the multiples of the BVB-listed companies and their most relevant peers
- The data in the new sections is provided and processed fully automatically by Capital Cube, a global provider of financial analysis

The [BVB Research Hub](#) platform, launched by the Bucharest Stock Exchange with the aim to provide investors access to fundamental research, launches a new functionality, a [Peer Comparison](#) tool. This tool allows up-to-date comparisons between the multiples of the BVB-listed issuers and the most relevant peers, prioritizing peers listed in Romania or on other CEE-based exchanges.

„Bucharest Stock Exchange is the main financing channel for Romanian companies. The BVB Research Hub project is very important as it aims to accomplish two main objectives: to increase the visibility of our issuers and to facilitate investors’ access to essential fundamental information in the decision-making process. Both objectives converge towards consolidating our key role in financing the local economy”, said Radu Hanga, President of Bucharest Stock Exchange.

The Peer Comparison tool, available only in English, was developed based on the collaboration between Bucharest Stock Exchange and [Capital Cube](#), a global supplier of investment analysis and investor content. The financial data is retrieved and processed fully automatically from Capital Cube’s database, which covers more than 50,000 companies and ETFs listed globally.

„The access to financial information and fundamental research is essential for investors in the capital allocation process. We believe that the new tool will be very useful, allowing real-time comparisons between the BVB-listed companies and their closest peers, including companies listed on other markets. This valuation method is very used and very popular also among institutional investors. Equally important, the implementation of this fully automatized solution, based on data aggregated globally, is a step forward in the digitalization and the development of the Romanian capital market”, said Adrian Tanase, CEO of Bucharest Stock Exchange.

Bucharest Stock Exchange launched BVB Research Hub on April 20, 2021, a platform to provide essential financial information about the BVB listed companies, useful in the investment process. The platform aims to increase the visibility of the local issuers and to facilitate investors’ access to high quality research resources. BVB Research Hub is dedicated to individual investors, institutional investors, listed companies and brokers and to the broad audience. The access to the resources available on the platform, fundamental research reports and peers comparisons, is free of charge. The platform can be accessed at the following link www.bvbresearch.ro.

BURSA DE VALORI BUCUREȘTI (BVB) administrează piețe de acțiuni, obligațiuni și alte instrumente financiare, prin platforme reglementate sau sisteme multilaterale de tranzacționare și furnizează o gamă variată de servicii participanților la piețele financiare. Bursa de Valori București este o societate listată pe propria piață din 2010. Fumizorul global de indici FTSE Russell a anunțat, în septembrie 2019, promovarea pieței de capital din România la statutul de Piață Emergentă Secundară. Din 21 septembrie 2020, România este inclusă propriu-zis în indicii FTSE Russell dedicați piețelor emergente. Pentru mai multe informații despre Bursa de Valori București, vizitați WWW.BVB.RO
