TERMENE.RO SUPPORTS THE PROGRAM MADE IN ROMANIA BY OFFERING THE FACILITY OF AUTOMATIC DATA RETRIEVAL ABOUT COMPANIES IN THE DEDICATED PLATFORM

- Bucharest Stock Exchange and Termene.ro announce the signing of a collaboration protocol to promote financing opportunities for companies in the capital market.
- The partnership includes the automatic retrieval of public data about companies available on the Termene.ro platform in the one of the Made in Romania program – www.investingromania.com, a functionality that will simplify the registration of a company in the Made in Romania platform.

Termene.ro, the platform that provides real-time updated data about Romanian companies, supports [Bucharest Stock Exchange \(BVB\)](http://Bucharest Stock Exchange (BVB)) in promoting existing financing opportunities in the capital market for companies. Termene.ro team will be actively involved in supporting this year's edition of Made in Romania, the program dedicated to Romanian entrepreneurs.

The BVB - Termene.ro partnership includes the automatic retrieval of public data about companies available on the platform Termene.ro in the one designed for the Made in Romania program - www.investingromania.com, when the profile of a company is completed, and the Unique Identification Code is introduced. The functionality is to be implemented in the next period and will simplify the registration of a company in the Made in Romania platform.

BVB developed and launched in April this year the 4th edition of the Made in Romania program, but also a dedicated platform - www.investingromania.com, by which BVB connects companies with brokers, business angels, venture capital, private equity and banks. Termene.ro is a fully automated platform where users have direct access to information from 15+ official sources, updated in real time, about the financial and legal data of Romanian companies. Established in 2014, Termene.ro is used by over 70,000 companies, gives support to identify business opportunities in a timely manner and to correctly assess risks through market analysis, reports and statistics that can be customized or monitoring the customer portfolio.

The Made in Romania program is currently running: Romanian entrepreneurs, partners, supporters, or employees can nominate companies through the platform www.investingromania.com until June 30th, 2021. Subsequently, the Nomination Committee will select 50 companies from all applications received. In the 3rd stage, in August, out of the 50 semifinalist companies, the public will establish by vote one of the 15 finalist companies. The other 14 finalist companies are established by a Jury composed of experts in various fields of economics. In the last stage, scheduled for September, the 15 finalist companies will be announced publicly. Details about this year's edition of the Made in Romania program are available [HERE](#).
